

Job Skills Institute transforms traditional education by combining university-accredited degrees with real IT company experience. Students graduate not just with knowledge, but with industry readiness from day one.

WORK-INTEGRATED LEARNING PROGRAM (WILP)

Job Skills Institute's Work-Integrated Learning Program (WILP) is designed to go beyond traditional degrees. Unlike regular courses where students only study theory, WILP ensures that every student learns, works, and earns at the same time — making them truly job-ready.

- **Full-time Regular Degree:** Students get a UGC-approved full-time degree (Regular, not Distance) from a NAAC A+ accredited university.
- **Real Work Experience:** Alongside academics, students work with leading partner companies and gain hands-on industry exposure.
- **Earn While You Learn:** Hiring partners provide a monthly stipend, so students become financially independent from graduation itself.

Why WILP is Better than Traditional Degrees

Aspect	Work Integrated Learning Program (WILP)	Traditional Degree Program
Focus	Combines theory with real-world on-the-job training	Focuses only on theoretical learning.
Practical Exposure	Mandatory industry immersion and apprenticeships.	Minimal industry exposure.
Financials	Students earn a monthly stipend, often making the degree self-financed.	High tuition & living costs, leading to student debt.
Career Readiness	Graduates are job-ready with real industry skills.	Graduates often need extra training before employment.
Outcome	Degree + work experience + certifications + Pre Placement Offers.	Degree only.

Hiring Partners Benefits

- **Strategic Talent Pipeline:** Companies get skilled talent, trained exactly as per industry needs.
- **Cost Efficiency:** Reduces hiring and training costs for companies.
- **Enhanced Productivity:** Students already familiar with industry tools and processes.
- **Improved Retention:** Apprentices are more loyal to the company that trained them.
- **Innovation & Diversity:** Brings in fresh ideas and perspectives from diverse backgrounds.
- **Regulatory Compliance:** Meets the requirements of the Apprentices Act, 1961 for employers.

ABOUT OUR INSTITUTE

Job Skills Institute

Founded in **March 2024**, Job Skills Institute was born out of a real-world need — companies struggle to find job-ready freshers, and students struggle to get experience before getting hired. We bridge this gap.

Our vision is simple yet powerful: help students earn a regular university degree while gaining real IT work experience side by side. This ensures they're not just graduates — they're industry-ready professionals from day one.

Rooted in the spirit of **NEP 2020 and its Work-Integrated Learning Program (WILP)**, our approach balances education and employment without compromising either. We're not just offering a degree; we're building futures.

Our Academic Partner :

GLA University

Job Skills Institute offers Work Integrated Learning Programs (WILP) in partnership with GLA University.

GLA University is accredited with an 'A+' grade by the National Assessment and Accreditation Council (**NAAC**), recognizing it as a top-tier private university. It has been awarded a NIRF ranking of 11 to 50 in 2023.

The full list of accreditations is available here:
